Project Details

Institute Student Portal

The "INSTITUTE STUDENT PORTAL" website aids students, faculty, and guests by granting convenient access to results, exam schedules, and registration procedures. It streamlines tasks, such as result generation, reduces paperwork, and efficiently manages institute information.

The College Management System [GitHub link](#)

The College Management System is an enhanced iteration of the "Institute Student Portal", serving colleges and universities in efficiently managing daily tasks. It offers centralized control over faculty,

students, library records, notices, results, and various reports. In today's digital age, such software is indispensable for educational institutions and enterprises, ensuring seamless operations and organization-wide efficiency.
